Work Experience/Projects

2025-FEB **YelpCamp -(MERN) (link)**

My first full-stack web application. Fundamentally, it's review website for campsites. The main features are login, sign-up, Admin role, Google Maps API, and Create, Edit, Update, Delete (CRUD) for campgrounds, comments, and reviews. Create routes have authentication. Edit, Update, and Delete routes have authentication and authorization. The basic foundation was built in the capstone project from the Udemy course The Web Developer Bootcamp

2024-SEP **Portfolio website using html/css/javascript (link)**

Developed a responsive personal portfolio website using HTML, CSS, and JavaScript, showcasing my skills, projects, and accomplishments with a clean and user-friendly design.

2024-OCT **Amazon clone using html/css/javascript (link)**

Developed an Amazon clone using basic HTML, CSS, and JavaScript to test and refine my front-end development skills. This project involved replicating the homepage layout, product listings, and interactive features such as a responsive navigation bar and product grid.

2024-AUG **Teaching Assistant at NIT Rourkela**

Teaching Assistant at NIT Rourkela, assisting in undergraduate courses by providing academic support, grading assignments, and facilitating lab sessions. Collaborated with professors to help students understand core concepts, troubleshoot coding issues, and improve their problem-solving skills in a structured learning environment
